Government Grant Brings Life to Mechanics

Cr Henryka Benson, Geoff Howard MLA Community Development Minister Lily D'Ambrosio, Mayor Guthrie & Cr Roger Jukes

Two grants totalling \$980,000 announced by State Minister for Community Development Lily D'Ambrosio will enable the Kyneton Mechanics Institute building to be brought back to life as a multi-use community facility by as early as August next year.

The funding is made up of \$850,000 towards works to redevelop the building and a further \$130,000 for landscape works to the adjacent Mechanics Reserve, which together with \$1M from the Council, holds out the prospect of significantly increased community activity in Kyneton's centre.

The Council's \$1M alone would not have been sufficient to restore the Mechanics, which had been beset by structural and damp problems, to a fully functional state nor to enable the quality community spaces that are now proposed.

The areas within the building are proposed to be flexible multiuse spaces.

The State Government Grant has been crucial in increasing the flexibility

of the Mechanics interior. A reduction in the size of the massive internal toilets in the southern wing of the building may see the Kyneton Historical Society temporarily locate in the front of that wing, although other location options are being explored. Two community group meeting rooms are proposed for the north wing (old Library) of the building - one in the front half closest to Mollison St and another which can double as a green room for performances at the rear. The Supper room on the South side of the building will also be available for hire.

The Kyneton Senior Citizens, who formerly used the Mechanics for its activities, has decided to remain in the St Mary's Hall in Hutton St.

The Mechanics Hall will be available not only for events, performances and concerts but also for functions such as weddings and exhibitions and a multitude of other uses.

The Council is yet to confirm its pricing for hiring the rooms, but they are likely to be similar to fees charged at Woodend and Gisborne. For booking enquiries contact Justin Charleson on 54211431. For project updates visit www.mrsc.vic.gov.au or contact Emma Pryse 54220216.

Hats Again!

Kyneton's Annie Smithers Bistrot and Royal George Hotel have again been recognised with One Chef's Hat in the 2010 Age Good Food Guide. This is the 5th consecutive year that Annie's has received a Hat and the 4th consecutive year for the George.

Full Reservoirs Draw Crowds

After a long cold winter in Kyneton and a wet August, the downpours of the first weekend in Spring Sept 4 & 5 saw massive quantities of water delivered into our local reservoirs.

Lauriston Reservoir drew a crowd on the weekend of the rain, with many locals not having seen the dam full in over a decade.

For many children, this was the first time they had seen water flowing over the spillway.

The Upper Coliban (above) the district's biggest reservoir, empty in 2007, also started overflowing.

A year ago, Malmsbury Res was well under 10 per cent capacity. Now it stands at over half full. And Lake Eppalock almost empty for years was at 87% of capacity last week.

Look for many more boats passing through Kyneton heading for Eppalock in the next few months.

Leonard Cohen at the Rock

Great excitement has been generated by the concert of legendary international star Leonard Cohen scheduled for Hanging Rock Reserve for Sat Nov 20. Special guests Paul Kelly, Clare Bowditch and Dan Sultan will also perform at the Concert. The concert starts at 4pm but the car park opens at 1pm and the concert gates at 3pm. Reserved seating, general admission and bus & car park tickets are available from ticketmaster.com.au or 136100.

Kyneton Baptist Church 150th Anniversary 23-24 Oct

Baptism in the Campaspe 1860

In October 1860 the rite of Believers Baptism was administered for the first time in Kyneton in the flood swollen Campaspe River, just below the Gardens. A week later the Kyneton Baptist Church was constituted and the following week plans were set in motion to build a chapel.

A simple wooden church was erected in Piper St. The builder was Mr Joseph Hamblin, a church member who later manufactured pianos at his shop in High St. The original church was later enlarged and in 1953 replaced with the building now owned by TJ Scott & Son. In 1981, the Baptist Church purchased the disused former Methodist property in Ebdon St. The bluestone structure was extensively repaired and extended before being reopened for worship in Oct 1982. This is the current Baptist Church centre.

The 150th Anniversary celebration worship service will be held this Sunday Oct 24 when the speaker will be Rev. Alan Marr, BUV Director of Ministries.

Other celebrations during the weekend will include a Family Picnic in the Botanical Gardens at 12.30pm Sat 23rd, a concert at the church at 7.30 that night, and a display of memorabilia and a historic multi media presentation "The Church in the Community Over 15 Decades" at 2.30pm Sun 24th. All welcome. Details can be obtained from the church office, 54221782 or www.kynetonbaptist.org.

River Flood Damage

The flooding on Sept 4th wrought havoc along the River. The platypus viewing platform ended up in a willow tree some 400 metres downstream and the wooden walkway had its middle section lifted up in about three pieces and moved 10 metres sideways. The Council has been working overtime to repair the damage and has asked that people do not offer to help at this stage as debris is often unstable and can contain dangerous material.

Later hand collection of plastic bags, cans etc may be appropriate when dangerous areas have been cleared. The River Walk Committee is working closely with Council and will organise working bees and notify volunteers through the local press at the appropriate time.

Big Crowds at Festival

Rotary Float Prize winning entry on theme 'Kyneton—Blooming with Pride'

Thousands of locals and visitors flocked to this year's 11 day Kyneton Daffodil and Arts Festival. The downpour and flooding reduced visitors to events and open gardens in the opening days of the Festival with even some officials unable to get through because of flooding but there was solid attendance from local residents.

The Kyneton Variety Spectacular headlined by Keith Potger and Marcie Jones on the night of Wed Sep 9 proved very popular, with that day also seeing a record number of passengers taking the new town bus service from the station.

On Sunday Sept 12 the Festival parade and fair drew one of the biggest crowds ever to watch, participate in and enjoy the parade and fair. New attractions to parade day - stilt walkers Ned and Nelly Narcissus, the Newham Drummers and the giant super slide were big hits.

"From a good sample of around 1000 Festival goers surveyed, two thirds were visitors to the Shire making the Festival not only a great event for local people but a significant visitor event" Festival Secretary Marg Dearthcott said.

Flight Experience for Scouts

The Cubs and Joeys from the Kyneton 1st Scout Group were given hands on experience with a variety of light aircraft at Kyneton Airfield on Sat Aug 28. Kyneton Aero Club members, led by local pilot Joanne Buckley, organised a number of aviation activities to introduce the next generation to the exciting world of Aviation.

Chief Flying Instructor Mike Bourke talked about how aircraft fly, demonstrated the controls of the aircraft and explained the purpose of the instruments. A number of aircraft owners made their aircraft available for the Scouts to try the controls for themselves and see how it feels to sit in the pilot's seat.

Aero Club volunteer Ian Miller showed the Scouts how to make their own flying model aircraft, culminating in a spectacular formation take off for the test flight of the completed models.

Captain Peter Baker was kept busy all morning as he took the Cubs flying, three at a time, in the Kyneton Aero Club Cessna 172 "Alpha Bravo Whisky". For most it was the first time they had seen Kyneton from the air, and any early nerves quickly disappeared as they gained height and enjoyed the new perspective.

Aero Club member Kim Yoannidis made his hangar available for tours where the 1940's Tigermoth, 1950's Auster and 1960's Cherokee could be compared and admired up close. Engines undergoing maintenance gave some insight into the inner workings of the flying machines.

The excitement continued when Warren Canning took off and flew some aerobatics in a Russian YAK-52. Kyneton Aero Club welcomes enquiries from community groups wanting to visit Kyneton Airfield. Write to Kyneton Aero Club PO Box 117 Kyneton Vic 3444 or email kynetonaeroclubinc@bigpond.com.
